

Hand pallet trucks

Steering wheels and fork wheels

Hand pallet trucks

Steering wheels and fork wheels

- A wide range of wheel materials to meet the requirements of different applications
 - Nylon
 - Rubber (only for steering wheels)
- Always possible to find the right choice for the customer
 - Easy rolling on firm, even floor. Hard and durable, good for heavy loads.
 - Quiet. Good grip on wet/slippery floors

Hand pallet trucks

Steering wheels and fork wheels

- Steel
 - For heavy industry. Prevents small items from sticking to the wheels. Very long life time. Higher noise level in some cases.
- Powerthane
 - High wear resistance and noiseless travel
- Polyurethane
 - Soft wheel for low noise level. Slightly harder to pull heavy loads.
